- Select "Settings and privacy" from the menu.
- Tap on "Privacy and Safety."
- Scroll down and tap on "Data usage."
- Toggle on the "Data Saver" option.

How to block ads on Twitter using a desktop

- Open your preferred web browser and go to the Twitter website.
- Log into your Twitter account.
- Click on your profile picture at the top right corner to access the drop-down menu.
- Select "Settings and privacy" from the menu.
- Click on "Privacy and Safety" in the left sidebar.
- Scroll down to the "Safety" section and click on "Data usage."
- Enable the "Data Saver" option to block ads from appearing on the Twitter website.

How to block all ads on Twitter

The only option which you can employ to block all Twitter ads is by using third party extensions. The extensions include:

- Adblock Plus
- uBlock Origin
- AdGuard

Tips for effectively blocking ads on Twitter

- Keep your ad-blocking extensions or add-ons up-to-date to ensure they are effective against the latest ad formats.
- Regularly clear your browser's cache and cookies to optimize performance.
- Customize your Twitter experience by unfollowing accounts that frequently promote ads.
- Report any intrusive ads that manage to slip through the blocking mechanisms to Twitter's support team.

Alternative methods for ad-blocking on Twitter

- Modifying your computer's host file to redirect ad-related domains to non-existent addresses.
- Utilizing network-wide ad-blocking solutions, such as Pi-hole, which block ads at the network level.
